*Allowable Subject Matter*

1. The following is an examiner's statement of reasons for allowance:
2. Claim 14 is allowed. The prior art does not disclose of fairly suggest advancing or retarding the timing of a system based on a second predefined time if a single bit is in the same state for a predetermined number of periods in a row, where the system has at least two coded channels, which support synchronized communications, with the timing of transmissions on either of the channels being retarded or advanced by the first predetermined time by setting a single bit.
3. Claims 19-26 are allowed. The prior art does not disclose of fairly suggest using a single coded channel for transmission by two transmitters where the transmissions by each transmitter are of different types.
4. Claim 40 is allowed. The prior art does not disclose of fairly suggest increasing or decreasing the power of a system based on a second predefined amount if a single bit is in the same state for a predetermined number of periods in a row, where the system has at least two coded channels, which support synchronized communications, with the power of transmissions on either of the channels being increased or decreased by the first amount by setting a single bit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel J. Ryman whose telephone number is (571)272-3152. The examiner can normally be reached on Mon.-Fri. 8:00-4:30.
